Wholesale Price List

Fall 1962 - Spring 1963

Foreword

You are cordially invited to visit our nurseries. We are very proud of them.

At our main nursery on Jericho Turnpike we have 215 acres of irrigated land. At our other nurseries, two miles south on Longwood Road, we have 210 acres, also under irrigation. These places were selected for altitude, being the highest points of land on Long Island, and for the high quality, heavy, clay loam.

We have seven greenhouses where we propagate about 500,000 Azaleas, Shrubs and Evergreens each year.

Lining Out Stock in back of book, beginning on Page 41.

Vines will be found on Page 36.

**LONG ISLAND'S
LARGEST NURSERIES**

**O u r
Fall, 1962
Spring, 1963
Catalogue**

General Information

Location: We are located in the geographical center of Long Island—on the Jericho Turnpike (Route 25) half way between New York City and Montauk Point and half way between Long Island Sound and the Atlantic Ocean.

Prices quoted are f.o.b. our nurseries, and are subject to change without notice. This price-list cancels all previous price-lists.

Terms: Accounts are due thirty days from date of invoice. Cash or satisfactory trade or bank references must accompany all orders from purchasers unknown to us. Interest at 6% will be charged on all overdue accounts.

Claims must be made immediately upon receipt of stock.

Packing and Delivery are in addition to cost of plants. Our service is prompt, as we have several of our own trucks to make delivery, for which we make a nominal charge.

BALLING and BURLAPPING

B. & B. (ball and burlap) — is free of charge with all evergreens and also with deciduous stock where specified "B & B". A charge will be made for digging deciduous stock with ball and burlap where not specified "B & B", as per the following schedule.

Shrubs		Trees	
		Diam.	Ball
2 to 3 ft.	.50	15 in.	4.00
3 to 4 ft.	.75	18 in.	5.00
4 to 5 ft.	.90	24 in.	8.00
5 to 6 ft.	1.50	30 in.	12.00
6 to 8 ft.	2.00	36 in.	20.00

Azaleas

ALL SHEARED COMPACT PLANTS B&B

We are the largest growers of azaleas in New York State. We have over 200,000 in the fields from eight inches to three feet in size. They are all under irrigation and are sprayed regularly. We feel that they are the finest azaleas ever offered to the trade. They are propagated from the hardiest species that have been outdoors unprotected for the past twenty years, and are treated for shipment outside the Japanese Beetle Zone.

All our Azaleas are over the size mentioned.

Liner Department

We have developed a nice business in liners due to the fact that we select the best plants for our customers.

We have 15 acres of 2 to 6 year heavy transplants to offer this year.

We will reserve plants for Spring or Fall. No deposits required for any of our stock.

Tree Seedlings

We have been planting tree seeds for more than twenty years and we believe that we now have the finest strains of Pine and Spruce to be found anywhere. Don't buy just any seedlings, for there is a tremendous difference in seedlings. Certain strains turn yellow over the winter and do not grow in a compact manner.

We have found that where the seed is grown is very important. We visited our seed collector in Japan a couple of years ago and were much impressed by his knowledge and methods, as he is one of the top collectors in the world.

Come and see our seed beds and be convinced.

ABELIA Grandiflora

2½" pots. each\$.15
 2 year beds, 18" to 24"\$.50
